Ann Arbor Sustainable Energy Utility Income-eligible Pilot

This pilot is only available to income-eligible homeowners and landlords/renters in the city of Ann Arbor. Residents who qualify for public assistance programs, such as Medicaid, MEAP, HUD and TANF, and have roofs in good condition that are approximately 10 years old or newer, are eligible to apply. Enrollment is only open through fall 2026, while funding lasts.

- Income-eligible residents only
- 2026 Fall sign-up window
- No upfront installation cost
- Solar + battery service

What you'll get:

1. **ROOFTOP SOLAR**
   A 4.5kW solar system (10 panels) installed on your roof
2. **HOME BATTERY**
   A 15 kWh battery installed outside your home
3. **NO UPFRONT COST**
   You pay nothing upfront to have the system installed
4. **STILL CONNECTED TO DTE**
   You'll still buy some electricity from DTE when needed
5. **PERSONALIZED REVIEW**
   We'll help gather your DTE data and model your rooftop system to assess the value

Predictable bills can make budgeting easier:

APRIL-SEPTEMBER	$75/month
OCTOBER-MARCH	$25/month

A2SEU Total Bill: $600/year

How billing works:

- You will still receive a DTE bill for the electrity you purchase from DTE
- Your DTE bill should be lower than before because your solar system will produce part of your energy
- Most residents can expect to save money overall on combined DTE + A2SEU bills compared with their original DTE bill
- We'll review your data with you so you can understand the value before moving forward

Income-eligible A2SEU Pilot FAQ

Answers to your A2SEU questions

Ann Arbor
Sustainable Energy Utility

Learn about the Ann Arbor Sustainable Energy Utility income-eligible solar + battery pilot. Have more questions? Attend a drop-in session Nov. 8, 14 or 21 (see details at the bottom), or contact the A2SEU team at seu@a2gov.org.

City-owned equipment

Maintenance included

Fixed rate through June 30, 2030

Rules available at a2seu.com

Are there other rules and regulations?

Yes, to join, you will sign a service request form which outlines key requirements and expectations. There is also a set of regulations that govern the service, just like you have for your water, electric and other utilities today. These are available at a2seu.com

1

WHO OWNS THE SOLAR AND BATTERIES?

The City of Ann Arbor will own them, just like other utilities own power plants or pipes. This means we'll take care of all maintenance. Your payment to the A2SEU is for purchasing the energy.

2

WHO IS ELGIBLE TO SIGNUP FOR THE PILOT?

Ann Arbor residents who qualify for public assistance programs, such as Medicaid, MEAP, HUD and TANF, and have roofs in good condition that are approximately 10 years old or newer, are eligible to apply.

3

IS THE RATE GUARANTEED?

The rate you'll pay the A2SEU is fixed until June 30, 2030. After that date, the rate may adjust up or down, subject to City Council approval.

4

WHAT AM I COMMITTING TO?

You agree to join the A2SEU until June 30, 2030. You will be required to pay a fee if you exit earlier than that to cover the cost of removing the panels and battery. After July 1, 2030, you may leave without penalty, and we will remove the system. We are confident you will love it!

INTERESTED?

- Email seu@a2gov.org
- Join us for an in-person drop-in event at an Ann Arbor District Library branch:

*** Sunday, Nov. 8, 10 a.m.-noon - Downtown Branch**
*** Saturday, Nov. 14, 11 a.m.-1 p.m. - Malletts Creek Branch**
*** Saturday, Nov. 21, 11 a.m.-1 p.m. - Traverwood Branch**
