

Green Rental Housing Checklist Pathway

Overview

The Green Rental Housing Checklist Pathway is the option of utilizing the Green Rental Housing Checklist to meet the requirements of the [Green Rental Housing Ordinance](#).

Requirement

Using the Green Rental Housing Checklist, obtain a *minimum* score of:

- 70 points for inspections from Jan. 6, 2026, to Jul. 5, 2028.
- 110 points for inspections after Jul. 5, 2028.

Instructions

1. Review the Green Rental Housing Checklist
2. Note items on the checklist, or list items on the Attestation Form
3. Provide documentation for each item that is claimed
 - a. Documentation can be photos, screenshots, process documents, lease language, or other options
4. Submit the claimed items and documentation in the CR case in STREAM in the files section
 - a. All the information can be submitted in one file or multiple
 - b. For assistance with navigating STREAM and submitting attachments, view our [STREAM help guides](#).
5. Office of Sustainability and Innovations (OSI) staff will review
 - a. If score meets the minimum requirement, and proper documentation is provided, the unit will pass
 - b. If the score does not meet the minimum requirement, or if documentation is insufficient, OSI staff will reach out to work on corrections

Additional Information

- [Landlord Resource Hub](#): Guidance on the ordinance, how to comply, and financial resources that are available
- [Landlord Resource Book](#): A breakdown of every item on the checklist that includes what the item is, how to get credit for it, and resources to do it

Questions

For any questions or assistance, email GreenRentalHousing@a2gov.org.

Ann Arbor Green Rental Housing Checklist

[For additional clarification on any item, review the GRH Regulations](#)

Planning

Planning Options	Points	Requirement	Documentation
Complete an Energy Assessment	4	An energy assessment has been completed that is inclusive of the unit.	A copy of the assessment OR confirmation from the assessor
Complete an Energy Improvement Plan	4	Submit a plan detailing planned improvements.	A copy of the plan with goals and timelines
Total Planning Points	8		

Sustainability, Health, and Education

Sustainability, Health, and Education Options	Points	Requirement	Documentation
Accessible Entrance and Pathway	2	An ADA accessible route is available from the property to a public walkway.	An image of the entrance and pathway. To be ADA accessible, there cannot be stairs to unit, or an alternative to stairs must be present
Advanced Central Boiler Controls	4	Central boiler controls with at least four indoor sensors for temperature regulation are present inside the building.	An image of the device(s) OR a purchase and installation receipt
All Lights are LEDs	2	All lights that are provided by in the dwelling unit are LEDs.	At least two pictures of LED lights that are installed
Bike Parking	2	One space is available per five units. Alternative, occupants are allowed to lock bike in an exterior location of the unit.	An image of where bikes can be parked OR evidence of communication to tenants where they can park bikes
Conduct Energy Efficiency Messaging	2	At least once a year, distribute education on energy efficiency to occupants.	Screenshot of communication or lease language OR proof of distribution of renter packet
Conduct Food Waste Prevention Messaging	2	At least once a year, distribute education on preventing food waste to occupants.	Screenshot of communication or lease language OR proof of distribution of renter packet
Coordinate a Community Supported Agriculture (CSA) or Farm Share Delivery	2	Coordinate a CSA or farm share delivery that occupants are able to subscribe to.	A link to a farmers market or a CSA website
Composting	2	Manage onsite composting, subscribe to a commercial service, provide a bin (if available), or connect to drop-off bins	An image of an onsite composting OR a compost bin OR proof of offer for compost drop off
Energy Efficient Windows	4	Windows are ENERGY STAR rated or have a low-e coated window film applied.	Model number of at least two windows OR receipt from purchase OR permit
Facilitate a Platform for Sharing Unused Items	2	Create a platform where occupants can share items they no longer need with those who need them.	Screenshot of communication about online groups OR a picture of a box where residents can share items OR proof of communication with occupants about A2ZERO Swaps

Free or Discounted Bus Passes	2	Each occupant has access to a free or discounted bus pass provided by the Owner.	Proof of communication with occupants about free or discounted bus passes OR lease language demonstrating information is provided to occupants (can include rent discounts)
Free or Discounted Wi-Fi Provided	2	Wi-Fi that meets minimum broadband requirements (100 Mbps download and 20 Mbps upload) is provided at a cost lower than what is being paid for the service.	Screenshot of communication or lease language showing WiFi is covered or discounted OR proof of agreement with ISP
Furnished Unit	2	The unit is available as fully furnished.	An image of the furnishings or language in a lease/advertisement that the unit is furnished
Fertilizer is not Used	2	No fertilizer is applied to landscaping on the property.	An image of a lawn OR a statement from a lawn care company/maintenance staff that maintains the landscape stating they do not use fertilizer
Green Lease is Signed	4	The lease signed by the occupant and the owner or agent is a green lease, documenting the actions that will be undertaken.	Communication in the lease that shows sustainability actions the landlord will do and sustainability actions the tenant will do
Habitable Room Area Has Access to Natural Daylight	2	Every habitable room shall have at least one window, sliding glass door, skylight, or other acceptable light transmitting media facing directly to the outdoors	Pictures of at least two rooms OR notice that unit has passed City inspection
Host or Sponsor a Swap Day	2	Host or sponsor at least one swap day a year occupants can participate in.	Event images OR evidence of communication sent to tenants for event
Host or Sponsor an Electronics Takeback Event	2	Host or sponsor at least one electronics takeback event a year occupants can participate in.	Event images OR evidence of communication sent to tenants for event
Host or Sponsor a Cooking and Nutrition Class	2	Host or sponsor at least one cooking and nutrition class a year occupants can participate in.	Event images OR evidence of communication sent to tenants for event
Integrate Edible Plants into Landscaping	2	Have plants and trees on the property that occupants can access and harvest from.	An image of edible plants that produce fruits/vegetables on the property that occupants can harvest from
Integrated Pest Management	2	An Integrated Pest Management Plan is in place and used by property staff and/or their contractors.	Process documentation inclusive of IPM or a confirmation from a pest management company
Kitchen Range Hood(s) Ducted to the Outdoors	2	A range hood is present over the stove and is ducted to the outdoors.	A picture of the range hood over the stove showing the ducting
Lawn Maintenance Is Provided with All Electric-Powered or Manual Equipment	4	All equipment used in the routine maintenance of the lawn care shall be all-electric equipment or done using manual equipment.	An image of the lawn equipment OR a statement from a contractor verifying they use all electric equipment

Location for Storing Sensitive Medications and Medical Devices During Emergency Situations	2	There is a location on the property that can store sensitive medications and medical devices in the event of an emergency.	An image of a device that can provide power during an outage (e.g., backup battery) OR an off-site location that can
Micromobility Share	2	A micromobility share that includes bikes, scooters, or a combination is available for free to occupants and managed by the agent or owner.	An image of micromobility vehicles OR lease language OR communication to residents about this initiative
No Smoking Permitted in the Unit	2	Smoking is not permitted in the unit.	Screenshot of communication OR lease language saying that smoking is not permitted in the unit
Occupants Allowed to Install Appliances	2	Occupants have the opportunity to install their own appliances.	Screenshot of communication OR lease language demonstrating that occupants are allowed to install their own appliances
Occupants Allowed to Install Window Films or Other Energy Saving Measures to Windows	2	Occupants have written permission to install energy saving measures to windows in the unit.	Screenshot of communication OR lease language demonstrating information has been provided to tenants
Occupancy Sensors in Common Areas	2	In all common areas, occupancy sensors for lighting, heating, and cooling are installed.	An image of an occupancy sensor OR purchase receipt (smart thermostats count)
Occupants Participate In a Renter Sustainability Session	10	Host a sustainability session or send tenants a recorded session from OSI	Event images OR screenshot of communication or lease language OR proof of distribution of renter packet
On-Site Clothes Washer(s) and Dryer(s)	2	Washers and dryers are present and available for occupants to use either in-unit or communal.	An image of the clothes washer(s) and dryer(s) OR a purchase and installation receipt
On-Site or Nearby Community Garden	2	A community garden, is available to occupants on-site or within ¼ mile.	Screenshot of communication demonstrating that occupants can garden OR screenshot of communication where map to a community garden is shared
Outdoor Line Drying of Clothes Allowed	2	There is no prohibition against outdoor clothes drying in the lease nor is there any policy enforced that prevents occupants from doing so.	Lease language or screenshot of communication that demonstrates that drying clothing outside is allowed
Paperless Communication and Rent Payment	2	Communication to occupants and rent payments are done virtually. Opt-outs are available.	Screenshot of communication or lease language demonstrating information has been provided to tenants
Participate in Pollinator-Aware Yard Care	2	Register your address as a Pollinator-Aware Yard Care program participant with the City of Ann Arbor.	An image of the Pollinator-Aware Yard Care sign up on the property OR registration confirmation

Property Accepts Affordable Housing Options	4	The property accepts housing vouchers designed to assist low-income families, the elderly, and the disabled to afford decent, safe, and sanitary housing.	Screenshot of communication or lease language demonstrating information has been provided to tenants
Property Has an Eviction Diversion Program	4	A program ensuring Occupant(s) can go through any eviction process with free legal assistance	Screenshot of communication or lease language demonstrating information has been provided to tenants
Provide Emergency Kit in Unit	2	An emergency kit is provided in each unit, with enough materials for occupants. Must include fire blanket, crank radio/flashlight, first aid kit, and thermal blanket.	An image of an emergency kit and its contents
Provide Container Gardening Materials	2	Containers for gardening are provided to the unit.	An image of at least two (2) buckets or pots for gardening
Provide Information About Nearby Sources of Local, Sustainably-produced Food	2	Upon move-in, and at least once per year, provide information on local food options to occupants.	Screenshot of communication or lease language OR proof of distribution of renter packet
Provide Information on Severe Weather Alerts	2	Upon move in, and at least once per year, notify occupants of Washtenaw County's emergency alert system and encourage them to subscribe.	Screenshot of communication or lease language OR proof of distribution of renter packet
Provide Smart Power Strips	2	One smart power strip is provided per occupant.	An image of a smart power strip in unit or lease language demonstrating that smart power strips are provided to each occupant
Provide Sustainability and Energy Efficiency Materials Upon Move-in	2	Upon move-in, provide sustainability and energy efficiency educational materials to residents.	Screenshot of communication or lease language OR proof of distribution of renter packet
Provide Waste Disposal Information	2	Upon move-in, provide occupants with the locations and methods for properly disposing of all waste streams, including hazardous waste.	Screenshot of communication or lease language OR proof of distribution of renter packet
Provide Weatherstripping for all Windows and Doors or Allow Occupants to Install	2	Either install weatherstripping on all windows and doors in the unit or allow occupants to install them on their own.	An image of the weatherstripping or lease language/other messaging to tenants granting permission
Ratio Utility Billing System (RUBS) or Submetering	2	Property has submetering or uses a formula that bills Occupant(s) in relation to their utility usage.	An image showing submeters OR language in the lease/other communication on how utilities are paid
Sidewalk Clearing Services in the Winter are Conducted Using Electric or Manual Equipment	2	All clearing is conducted using either electric (e.g., electric powered snow blower) or manual (e.g., shovels) options.	An image of the tool(s) used OR a confirmation from a contractor
Space Cooling is Provided	2	A permanent technology that provides cooling to the habitable space is present.	An image of the space cooling unit(s)

Tool Library Available to Occupant(s)	2	Create a platform and location for occupants to check out and return tools and provide the tools.	An image of tools that occupants can use OR proof of communication
Use a Programmable Thermostat	2	A thermostat that has the ability to adjust the times the heating or air-conditioning is running and the temperature it is set to according to a pre-set schedule is present.	An image of the thermostat OR receipt
Use an ENERGY STAR Certified Smart Thermostat	2	A Wi-Fi enabled thermostat that adjusts heating and cooling temperature settings for optimal performance and can be controlled from anywhere with an internet connection. Points stack with using a programmable thermostat.	An image of the thermostat OR receipt
Use Eco-friendly Cleaning Products in Common Areas	2	Use cleaning materials certified by the EPA Safer Choice program or the EPA Design for the Environment Label.	Images of cleaning products OR receipts OR confirmation from a cleaning contractor
Use No- or low-VOC paint	2	All paint used in the unit is no- or low-VOC paint.	An image of the paint can(s) OR purchase receipt OR contractor confirmation
Windows can be Opened	2	Every habitable room shall have at least one window, sliding glass door, or skylight which can easily be opened, or such other device as will adequately ventilate the room. Mechanical ventilation may be provided in lieu of natural ventilation.	Images of at least two windows OR notice that unit has passed City inspection
Total Possible Sustainability, Health, and Education Points		128	

Renewable Energy and Electrification			
Renewable Energy and Electrification Options	Points	Requirement	Documentation
Majority of Electricity Provided by Renewable Energy Either Onsite or Through a Green Pricing Program	8	At least 51% of the electricity used on-site is generated by renewable energy on-site or through a green pricing program.	Image of solar panels on roof OR registration confirmation for MIGreenPower or other similar program
Complete the Sustainable Energy Utility Expression of Interest	2	Watch a video about the Sustainable Energy Utility and complete the expression of interest form for the property	Show confirmation from expression of interest form
Electricity is the Primary Type of Energy Used for Space Heating	15	Any type of primary heating that uses electricity to provide heating. Examples include baseboard heat, an electric furnace, a heat pump (air source or geothermal), or a hybrid electric and a gas backup system.	Image of space heating appliance(s) OR a purchase and installation receipt

Electricity is the Primary Type of Energy Used for Water Heating	4	Any type of water heater that uses electricity to heat water. Examples include electric tank water heaters, electric on-demand water heaters, and heat pump water heaters.	Image of water heater(s) OR a purchase and installation receipt
Electric Clothes Dryers	3	Any type of clothes dryer that uses electricity to dry clothes. Examples include electric resistance dryers, heat pump dryers, and heat pump washer/dryer combo	Image of clothes dryer(s) OR a purchase and installation receipt
Electric Vehicle Charger Installed	5	At least one EV charger is installed. Charger(s) must be Level 2 or DC fast chargers.	Image of EV charger or a 240v outlet OR a purchase and installation receipt
Electric Vehicle Chargers Installed Bonus	5	At least 10% of the parking spaces provided have an EV charger installed. Charger(s) must be Level 2 or DC fast chargers. Points stack with having a charger installed.	Image of EV charger(a) or a 240v outlet OR a purchase and installation receipt
Oven and Range Are Electric	5	An oven and range that heats food using electricity. Examples include electric resistance coils and induction cooktops.	Image of oven and range OR a purchase and installation receipt
Total Possible Renewable Energy and Electrification Points		47	

Energy Efficiency			
Insulation and Air Sealing Options	Points	Requirement	Documentation
Air Sealing	9	A blower door test showing an CFM50 roughly equal to the square footage of the household	Copy of a report from a blower door test
Allow Occupants to Air Seal	2	Occupants are allowed to perform air sealing measures on their own or hire a contractor.	Lease language or other communication demonstrating occupants are allowed to perform air sealing measures or are able to hire their own contractors to air seal
Attic or Non-attic Roof Areas are Insulated	9	The attic is insulated to R-50 or greater. Finished attics and ceiling areas with no attic above should be insulated to R-30 or greater.	Report from an energy assessment OR purchase receipt OR past permits OR image of the insulation OR thermal camera imaging
Ducts Sealed and Insulated	9	Ducts are sealed to 10% leakage or less and ducts in unconditioned areas insulated with R-8 insulation or greater.	Report from an energy assessment or duct leakage test OR purchase receipt OR image of the insulation
Foundation OR Rim Joists OR Crawl Space Insulated	9	Foundation walls OR rim joists are insulated to R-10 or greater, OR crawl space is air sealed.	Report from an energy assessment OR purchase receipt OR past permits OR image of the insulation OR thermal camera imaging

Walls are Insulated	9	All exterior walls have R-13 or greater insulation.	Report from an energy assessment OR purchase receipt OR past permits OR image of the insulation OR thermal camera imaging
Total Possible Insulation and Air Sealing Points		47	
Heating, Cooling, and Water Heating Options	Points	Requirement	Documentation
Heating & cooling system (select only one)			
Medium-Efficiency Cold-Climate Heat Pump with Gas Backup Heat	15	An air-source heat pump with a minimum rating of SEER2 15.2 and HSPF2 8, with gas furnace backup. Points stack with using electricity for space heating.	An image of the heat pump that includes the model number OR a purchase and installation receipt
High-Efficiency Cold-Climate Heat Pump with Gas Backup Heat	30	An air-source heat pump with a minimum rating of SEER2 19 and HSPF2 9.1, with gas furnace backup. Points stack with using electricity for space heating.	An image of the heat pump that includes the model number OR a purchase and installation receipt
Low-Efficiency Cold-Climate Heat Pump with Electric Resistance Heat	10	An air-source heat pump with a minimum rating of SEER2 15.2 and HSPF2 7.8, with electric resistance backup heat. Points stack with using electricity for space heating.	An image of the heat pump that includes the model number OR a purchase and installation receipt
Medium-Efficiency Cold-Climate Heat Pump with Electric Backup Heat	20	An air-source heat pump with a minimum rating of SEER2 15.2 and HSPF2 8, with electric resistance backup heat. Points stack with using electricity for space heating.	An image of the heat pump that includes the model number OR a purchase and installation receipt
High-Efficiency Cold-Climate Heat Pump with Electric Resistance Backup Heat	30	An air-source heat pump with a minimum rating of SEER2 19 and HSPF2 9.1, with electric resistance backup heat. Points stack with using electricity for space heating.	An image of the heat pump that includes the model number OR a purchase and installation receipt
Geothermal (Ground Source) Heat Pump	30	A geothermal heat pump system that is ENERGY STAR Certified. Points stack with using electricity for space heating.	An image of the heat pump that includes the model number OR a purchase and installation receipt
Water heating system			
Heat Pump Water Heater	15	A water heater that uses heat pump technology. They are also commonly referred to as Hybrid Electric Water Heaters. Points stack with using electricity for water heating.	An image of the water heater that includes the model number OR a purchase and installation receipt
Heating and Cooling Maintenance			
Conduct Tune-ups on Heating and Cooling Appliances	2	All HVAC equipment gets a tune-up at least once a year.	Maintenance ticket or equivalent OR receipt from a contractor
Replace Heating and Cooling Filters	2	Filters in each heating and cooling appliance are changed at least twice a year.	Maintenance ticket or equivalent OR receipt from a contractor OR image of filters

Flush Water Heater	2	The water heater is flushed at least once a year.	Maintenance ticket or equivalent OR receipt from a contractor OR image of flushing
--------------------	---	---	--

Total Possible Heating, Cooling and Water Heating Points	51		
---	-----------	--	--

Appliance Bonus Options	Points	Requirement	Documentation
Dishwasher is ENERGY STAR rated	1	Dishwasher has ENERGY STAR rating. Point stacks with dishwasher in unit.	An image of dishwasher with clear ENERGY STAR logo OR image of the model number that can be verified on the ENERGY STAR product finder OR a purchase and installation receipt
Heat Pump Clothes Dryer	1	Clothes dryer that uses heat pump technology. Points stack with electric clothes dryer.	An image of heat pump clothes dryer OR a purchase and installation receipt
Induction Cooktop and Range	1	An oven and range that heats food using induction. Point stacks with oven and range are electric.	An image of the oven and range OR a purchase and installation receipt
On-Site Clothes Dryer Is ENERGY STAR Rated	1	Clothes dryer has ENERGY STAR rating. Point stacks with electric clothes dryer, with dryer in unit, and can with heat pump clothes dryer.	An image of clothes dryer with clear ENERGY STAR logo OR image of the model number that can be verified on the ENERGY STAR product finder OR a purchase and installation receipt
Refrigerator is ENERGY STAR Rated	1	Refrigerator has ENERGY STAR rating.	An image of refrigerator with clear ENERGY STAR logo OR image of the model number that can be verified on the ENERGY STAR product finder OR a purchase and installation receipt
Total Possible Appliances Points	5		

Total Possible Energy Efficiency Points	103		
--	------------	--	--

Water Efficiency			
Water Efficiency Options	Points	Requirement	Documentation
Dishwasher	2	A dishwasher is available in the unit.	An image of the dishwasher in the unit OR a purchase and installation receipt
Grass and Landscaping are Not Watered	2	No sprinkler system is installed and there is no operating procedure for watering the grass and landscaping.	An image of a lawn OR a statement from a lawn care company/maintenance staff
Graywater and/or Rainwater System for Landscape Irrigation	2	At least 50% of the water used for landscaping comes from a graywater and/or rainwater system.	An image of the lawn of your property OR an image of a rainwater or graywater barrel

Leak Detectors	2	Leak detector(s) are installed in the unit. Either a whole-system unit that monitors the entire water delivery system, a system of floor detectors, or an alert through AquaHawk.	AquaHawk report/screenshot of access OR lease language or other communication requiring tenants sign up for AquaHawk OR a picture of leak detectors
Low Flow Showerheads	2	All showerheads in the unit must meet EPA's WaterSense standard rating.	An image of at least one showerhead per unit that shows its certification or the GPM OR a purchase receipt
Low Flow Sink Aerators	2	All bathroom sinks in the unit must meet EPA's WaterSense standard rating.	An image of at least one low-flow aerator per unit that shows its certification or the GPM OR a purchase receipt
Low Flow Toilets	2	All toilets in the unit must meet EPA's WaterSense standard rating	An image of at least one low-flow toilet per unit that shows its certification or the GPM OR a purchase receipt
On-site Clothes Washer is ENERGY STAR Rated	2	If there is a clothes washer on-site, whether in the unit or a communal one, it is ENERGY STAR rated.	An image of clothes washer with clear ENERGY STAR logo OR photo of the model number that can be verified on the ENERGY STAR product finder OR a purchase and installation receipt
Permeable Pavement	2	All pavement on areas owned by the owner or agent is permeable.	An image of the pavement
Rain Garden or Bioswale on the Property	2	A rain garden or bioswale is on the property that is certified by Washtenaw County Water Resources or other certifying entity.	An image of the rain garden or bioswale OR documentation that says the rain garden/bioswale is certified by Washtenaw County Water Resources or other certifying entity
Water-efficient Landscaping	2	The common-use areas intended or made available for the use of building occupants shall meet all the outdoor water efficiency criteria of the EPA WaterSense Specifications.	An image of the landscaping OR a verification from a certified landscaping company
WaterSense Labeled Irrigation System	2	If an irrigation system is present, both the spray sprinkler bodies and the irrigation controller must be WaterSense labeled.	An image of WaterSense irrigation system OR receipt of purchase
Total Possible Water Points		24	

Total Possible Points	Points Achieved
310	

Unlisted Innovative Measures			
Innovative Measure Options	Points	Requirement	Documentation
Measures to be submitted	Discretionary	Submit measures to the Office of Sustainability and Innovations Manager to be approved.	To be determined based on measure

Checklist Documentation

Overview

To comply with the ordinance, documentation for each item claimed on the checklist must be submitted. Documentation can include photos, screenshots, process documents, lease language, contracts, receipts, or other options.

Instructions

1. Review your completed Green Rental Housing Checklist and/or Attestation Form above
2. For each item, provide documentation to certify it is present and/or being done at the unit. Documentation and examples can include, but are not limited to:
 - a. A photo of the item (e.g., bike parking, programmable thermostat, heat pump)
 - b. A screenshot of an email or other communication (e.g., energy efficiency messaging, renter sustainability session, waste disposal information)
 - c. Lease language (e.g., green lease, outdoor line drying of clothes allowed, paperless rent collection)
 - d. Contract language (all-electric lawn maintenance, low- or no-VOC paint, eco-friendly cleaning products)
3. Gather documentation for submittal. Documentation can be submitted through the following, though other options will be accepted:
 - a. Add additional pages to this document (virtually or hard copy) and add in the documentation to submit as one document
 - b. Create a second document (e.g., in Word, Google Docs, PDF) and upload along with the checklist/attestation form
 - c. Add everything into a shared folder (e.g., Google Photos, Dropbox, Zip drive)
4. Submit documentation along with Checklist/Attestation Form in STREAM
 - a. Under the CR case, in the files tab, attach the file(s)
5. Office of Sustainability and Innovations (OSI) staff will review
 - a. If documentation properly confirms the items claimed, the unit will pass
 - b. If the documentation is insufficient, OSI staff will reach out to work on corrections

Questions

For any questions or assistance, email GreenRentalHousing@a2gov.org.

[Use this page and add more to attach documentation]

Green Rental Housing Attestation Form

Instructions

If pursuing the Checklist Pathway, upon reviewing the Green Rental Housing Checklist, fill out the subsequent table with the options present in the dwelling or dwelling unit or attach a copy of the Green Rental Housing Checklist that clearly marks which options are presented and the overall score. Alternatively, if pursuing the Home Energy Rating System Disclosure Pathway, attach a copy of the Home Energy Rating System assessment report.

Prior to the periodic inspection required by Chapter 105, Section 8:511, the Agent or Owner of a Dwelling or Dwelling Unit must submit this testament to the City's Rental Housing Services along with any supporting documentation (e.g., appliance specifications demonstrating their efficiency, images, etc.).

Attestation

By signing this document, I hereby attest the dwelling or dwelling unit contains the items as indicated in this document and/or the attachments.
